**INCLUDED MODES:  
MIXED, SORT, FACE, ORIENTATION,  
VALUSORT™, STRAPPING AND MORE!**

**VALUSORT™:  
SIMULTANEOUSLY  
SORTS & STRAPS  
MIXED STACKS  
IN ONE-PASS**

Powered By:

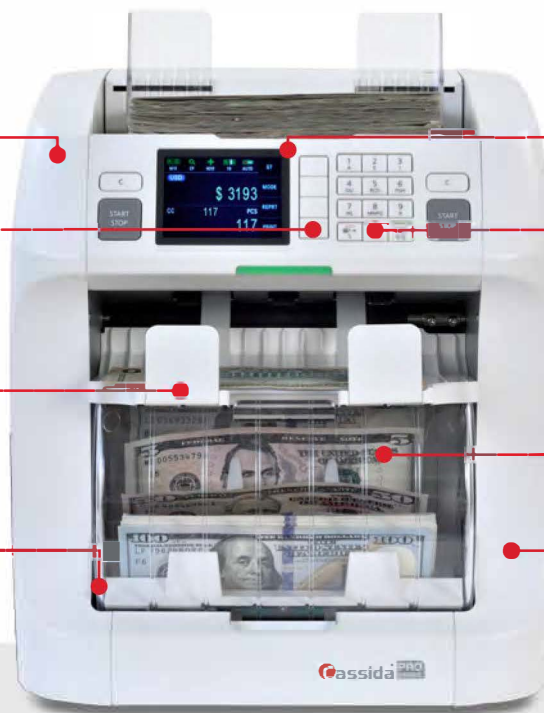

- **Powerful Performance**  
Incorporates unparalleled bill recognition technology for the fewest false rejects in the industry!
- **Advanced Counterfeit Detection**  
Defeats even advanced counterfeiting techniques with magnetic ink, ultraviolet, infrared and color spectrum analysis checks.
- **Fastest Sort and Strap**  
The only discriminator able to both sort and strap mixed bills in one smooth pass-through.
- **Detailed Reporting**  
Provides in-depth on-screen reporting that may be exported via thumb drive or printed.
- **Quiet and Compact**  
Up to 40% smaller than competing discriminators. Quiet operation won't distract during business operations.

Patented motor drive system with minimal serviceable parts for longer life.

Hot keys quickly toggle between modes and settings

Reject Pocket ensures fast, smooth operation as strangers and suspects are automatically sent here.

Patented dust shield keeps dust from counted bills contained.

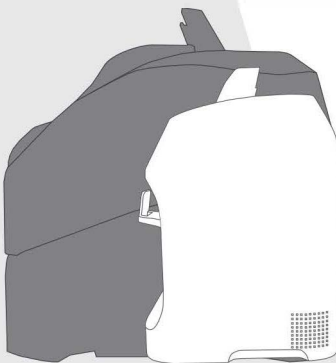

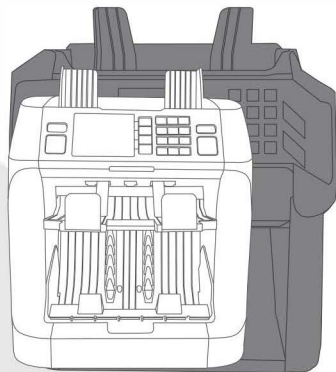

High-definition LCD screen for easy operation and crystal-clear reporting.

Universal memory function saves personal operational preferences for up to 5 different users

Counts both new and worn bills smoothly without jamming.

Built of durable composite materials for continues high-volume use.
