

LUMI

Compact Smart Safe

The New Horizon of Retail Cash Handling

With a sleek and stylish design as well as a small footprint, **LUMI** can be placed almost anywhere including front of the store!

LUMI is engineered to effectively accelerate and improve retail end-of-day accuracy along with banknote validation, reducing fraud and internal theft, it's all integrated together decreasing the stress of cash processing.

The option of the MA Cloud service completely monitors users daily deposits and activities information and reports this in real time, which optimizes cash processing and reduces the risk of human error while increasing productivity.

7" touchscreen adjustable flip feature provides intuitive user interface and a user-friendly operation.

Large banknote storage capacity up to **1 000 notes** as well as easy access to note path.

Connectivity is extremely flexible and provides more options.
